

Save this 9-point checklist to ensure your communication is compliant:

1. Clear disclosure at opt-in (who's sending, what they're sending).
2. Prior express consent is logged and tied to the sender.
3. Easy, universal opt-out (STOP = stop) and fast processing.
4. 10DLC brand + campaign registration completed.
5. Message content fits the declared campaign use case.
6. Respect DNC and frequency limits (no spammy bursts).
7. Audit-ready archives of consent + messaging history.
8. Role-based access controls and SSO.
9. Native integration (Teams/Webex/Zoom/RingCentral) to reduce swivel-chair.
